In support of Bill #5283

Hi,

To whom it my concern in legislation I would like to express my support for Bill#5283.

My name is Samantha Motta and I am a resident as well as a student at Suffield High.

I'm a freshmen and in the Agriculture program at our high school.

I am for this bill because I do not think many realize how great the Ag program is.

I am a sport girl all sports actually and wanted to spread my wings and try new things in high school.

I have absolutely loved my experience so far in the Agriculture program as it has helped me to learn so much about plants, soil, food, and animals. So much to where I cant wait to take Ag Science next year as I'm really hoping to become a Veterinarian and wasn't even a thought before taking Ag.

One of the best things I have loved so far about our program is I have met kids from all over Connecticut that I would have never had the chance to meet if I wasn't part of this amazing program offered at our school.

I really believe funding will help to continue such a great program where kids like me can learn hands on, meet other kids from all over and really broaden our minds to what Ag really means. I have already learned so much about leadership, teamwork and caring for the environment.

Thank you so much for taking the time to read my letter.

I hope it makes a difference and this bill is passed.

Samantha Motta
